

7 June 2022

To whom it may concern:

This letter certifies that **Alejandro de Fuentes Martínez** successfully completed a peer-review report for the article **Data Science Conceptual Cartography** which was under consideration by *Transdigital* journal.

This peer-review report was verified on **7 June 2022**. We have certified that the report is complete and that it satisfies the requirements of our evaluation rubric. Our approach to double and blind peer-review strives to be of the highest academic standards, founded on the most rigorous and merit-based two-way anonymous peer-review processes.

Transdigital is an electronic, scientific, open-access journal that addresses the study of technology and society. It is published bi-annually (January and July) by the continuous publication model. The International Standard Serial Number (ISSN) that identifies the journal is 2683-328X and it is indexed, so far in: Latindex, DOAJ, REDIB, ROAD and EuroPub.

The *Transdigital* project is an initiative of the Sociedad de Investigación sobre Estudios Digitales S.C. We encourage you to meet both the *Transdigital* project as well as the *Transdigital* journal scanning the QR codes situated on the bottom of this letter.

Yours sincerely,

Alexandro Escudero-Nahón

Editor in Chief of *Transdigital* journal
